

ASCLS PAC

Join the Movement:

SUPPORT THE ASCLS POLITICAL ACTION COMMITTEE

OUR PURPOSE

The ASCLS Political Action Committee (PAC) is a powerful collective of laboratory professionals who are committed to protecting and advancing healthcare legislation that directly impacts medical laboratory science. We are independent and nonpartisan – driven not by politics, but by purpose.

Medical laboratory professionals are essential to patient care and the healthcare system. Through ASCLS/PAC, we work to influence legislation that protects and advances our profession. Your support ensures our voices are heard and respected by lawmakers nationwide.

Advocate for Health Legislation

Encourage candidates for national office to prioritize policies that elevate medical laboratory science, quality healthcare, and better patient outcomes.

Engage Laboratory Professionals

Build political awareness and empower lab professionals to become advocates for their own future.

Support Candidates Who Care

Support candidates for federal office—on both sides of the aisle—who have the power and platform to shape healthcare policy and drive meaningful change for the laboratory profession.

Raise Awareness

Shine a light on the indispensable relationship between government decision-making and medical laboratory impact.

Organize for Action

Unite as a profession to become a louder, stronger force on Capitol Hill.

WHY YOUR SUPPORT MATTERS

Medical laboratory professionals are the unsung heroes in the healthcare system. Every test performed, every result generated, shapes the future of a patient's life. But, without a seat at the table, our profession risks being overlooked. Through ASCLS/PAC, we fight to ensure lawmakers understand the critical role of the laboratory and create policies that support the work of laboratory professionals, patients, and respect the professional's expertise. Your donation directly fuels this fight.

We need your help!

ASCLS/PAC amplifies the voice of laboratory professionals in the halls of Congress. But influence doesn't happen by accident, it takes action and investment. We need your support.

By donating, you:

- Defend patient safety
- Elevate the lab profession
- Ensure lawmakers understand what's at stake

Advocacy is not optional—it's your professional duty.

Ways to Contribute to the ASCLS PAC

- Scan the QR code 
- Contribute directly through the [ASCLS website](#).
- Donate at your ASCLS constituent meetings at the PAC table.
- Add your contribution when you renew your [ASCLS membership](#).

Join us in shaping the future of healthcare legislation. Every dollar makes our collective voice louder.
